

AUDIO 2 DJ

Ultra-compact 2 channel audio interface for DJs

COMPACT AND LOUD

The new AUDIO 2 DJ from Native Instruments fills the need for a high quality, entry-level priced DJ sound card. Compared to other cards at this price point it has:

- ▶ Compact dimensions – smallest DJ USB soundcard worldwide
- ▶ Highest sound quality – 24 bit / 96 kHz Cirrus Logic chipset
- ▶ Ultra loud output – the output volume of your laptop will be as loud as professional CD decks

PRACTICAL. PROFESSIONAL. PORTABLE.

- ▶ Professional USB 2.0 audio interface specifically tailored to DJs
- ▶ Amazing sound quality, 24-bit / 96 kHz Cirrus Logic® converters
- ▶ Hi-gain output for punchy, loud level to drive any pro club system
- ▶ Ultrawide frequency response reveals every detail of the music
- ▶ Same sonic qualities as its bigger brothers AUDIO 4 DJ and the multi award-winning AUDIO 8 DJ interface
- ▶ The ultra-compact design literally fits in the palm of a hand
- ▶ 2 stereo 1/4" line / headphone level outputs with manual volume control (1/4" jack-to-RCA cables included)
- ▶ 2 stereo outputs can be connected to any DJ mixer
- ▶ 2 output LEDs (one LED for each stereo channel) for instant visual monitoring of connection status
- ▶ The perfect travel companion for any serious DJ
- ▶ Bus-powered design, no external power supply required
- ▶ Ultra-low latency ASIO™, Core Audio™, Direct Sound™, WASAPI™ drivers
