MASCHINE+

MASCHINE+ is an immersive, standalone groovebox for production and performance. It offers a fast, intuitive workflow for control over sampling, synthesis, and effects, plus premium sounds from Native Instruments.

Includes **MASSIVE, MONARK, PRISM** and more...

KEY FEATURES

- **Immersive standalone** workflow for creating beats and melodies, sampling, arranging music, and performing on stage or in the studio

- **Includes MASCHINE+ Selection** with industry-leading instruments, sounds, and effects, plus renowned **MASCHINE drum and bass synth plugins and effects**

- **Quad-core CPU and 4 GB RAM** for fast, seamless creation when it counts

- **Pro-grade, 44,1 kHz / 24-bit audio interface*** with 2 x ¼" TRS line outputs, 2 x ¼" TRS line inputs, ¼" dynamic mic input, stereo headphone output, 1 x MIDI In, 1 x MIDI out; 1 x Footswitch, 2 x USB ports for MIDI controllers / external HDDs

- **Robust, anodized aluminium design** for years on the road and in the studio

- **Iconic MASCHINE features and workflow** including 16 velocity-sensitive pads, MASCHINE effects and plugins, swing, pad link, note repeat, step sequencer, and vintage sampler emulation

- **Use standalone or with a computer** — integrate with your studio workflow, and unplug for DAW-less setups or live performances

- **WiFi and Link enabled** for wirelessly installing and updating products, collaborating with others, and syncing with other gear

* up to 96 kHz / 24-bit in controller mode

HARDWARE SPECIFICATION
